## VICTIMS OF THE HEAT

Another Long Death Roll Sent In From New York.

## COOLER WEATHER IS PROMISED.

Continuation of the Torrid Wave Yesterday Caused a Vast Number of Fatalities and Prostrations—Dead Horses Lying in the Streets of Chicago Can Not Be Carted Away.

WASHINGTON, Aug. 12.—The weather bureau last night held out moderate relief for the east and central states within the next 24 hours. It was with some pride that Major Dunwoody last night referred to the area of high barometer which he sighted off the Rockies in northern Montana. The low area, then central over the Mississippi valley, moved to the northeast and last night was bound out to sea over the St. Lawrence valley, dragging the high in its wake.

With the high came the fall of temperature which panting humanity has been waiting for so impatiently for 10 days or more. Montana, Colorado, Iowa, Kansas and Nebraska felt its cool breath and enjoyed a fall of temperature of from 10 to 15 degrees. It traveled about 500 miles in the 24 hours. Major Dunwoody says it will move eastward at a little more rapid pace during the next 24 hours and be central over the Ohio valley and the lower lake region tonight reaching the Atlantic coast by Thursday morning.

The government weather sharp has it understood that this is not a cold wave, but merely a relief from the excessive and almost unprecedented hot spell. While he makes no definite predictions he ventures a statement that a storm from the West Indies usually comes sweeping up the coast about this time and it is betraying no confidence to say that he would not be surprised to see one come rushing along within the next four or five days.

If such a storm should come it would cool things east of the Alleghenies and affect the atmosphere generally 600 miles into the interior. There hasn't been a revolution of the wind east of the mountains in 10 days. The vane has shifted from west to south. All together this protracted hot spell can be classed as remarkable. The high temperature in the prairie country has lasted 20 days, in the western gulf states a fortnight and on the Atlantic seaboard a week.

The highest temperatures yesterday were at Philadelphia, 98; New York and Albany, 94; Washington, 94; Montgomery, Ala., 98; Abilene, Tex., 96; St. Louis, 96; Chicago, 94. Along the Pacific coast the mercury ranged from 60 to 70, but at some points like Roseberry, 30 miles back from San Francisco, the thermometer registered 100.

## LONG LIST OF DEAD.

Most Remarkable Day of Fatalities and Suffering So Far Recorded.

NEW YORK, Aug. 12.—Another day of fearful heat which is oppressing this section has added a page of fatalities and suffering more remarkable than its predecessors. In New York city, in Brooklyn and all the adjacent towns and throughout the states of New York and New Jersey the day's reports of deaths and prostrations overshadow the record of any other day in many years. In this city alone the death list for 24 hours up to midnight, contains more than 100 names. Brooklyn adds about 20 to the list and the heat victims in suburban towns brings the total up to 150.

Men and women walking along the streets have dropped in their tracks and died before physicians could be summoned and horses have died as though stricken by a plague. Many factories have been closed and out door workers have been compelled to drop their tools and find shelter during the hours when the sun was at its height. Particularly among policemen and letter carriers has the suffering been intense and many have been compelled to stop work from both forces.

Along the business streets men have walked with umbrellas over their heads, with coats on their arms and fans in their hand. The hospitals of this city are crowded to their full capacity, while the doctors and nurses have been kept at work night and day until many of them have succumbed to the strain.

The department of public works has come to the relief of the tenement house districts and forces of men with hose carts are patrolling the streets of these sections and flooding them with water from the corner hydrants. Men, women and children rush in groups under the hose and night scenes among the tenements as the relief parties make their rounds are unprecedented. Unless tonight brings relief many prostrations are looked for in the Madison Square Garden meeting and preparations are being made for a special force of medical men and for special ambulances.

The thermometer has for the past six nights fallen but a few degrees from the limits registered during the hottest part of the day. The heat on Monday night held almost stationary at 81 degrees until 4 o'clock on Tuesday morning, and as the sun began to ascend, the thermometer did likewise until all previous records for Aug. 11 were broken. The highest previous record for Aug. 11 was 93 degrees in 1891 and 92 degrees in 1892, while yesterday it registered up on the top of the Manhattan life insurance building, where the weather bureau is situated, 93.5 degrees and the humidity, which is far worse than the boiling sun, stood at 70, and down on the streets it was not less than 5 degrees warmer.

The official temperature beginning at noon was as follows:

Twelve noon 90; 1 p. m., 89; 2 p. m., 93; 3 p. m., 93.5; 4 p. m., 93; 5 p. m., 93; 6 p. m., 92 and 7 p. m., 90 and up to midnight the temperature did not drop but a few points, registering 85.

Following is a revised list of deaths: Kate Dressler, 28 years old; Alexander Guthrie, 40; Morris Gillespie, 40; Emil Erdtman, 36; Patrick Menton, 40; Sophie Brand, 34; John J. The total prostrations in New York and Brooklyn is estimated at 200.

## CHICAGO RELIEVED.

Blessed Breeze Strikes the Windy City That May Be Permanent.

CHICAGO, Aug. 12.—A good breeze tempered the heat to the suffering people of this city yesterday although the thermometer registered 92, being only one degree lower than the day before. The deadly effects of the high temperature, however, continued and 30 fatal cases of sunstroke were already reported at midnight with the list still incomplete. About 50 cases of prostrations, more or less serious, have also occurred.

A shower at 7 o'clock sensibly cooled off the atmosphere, but only for a short time. The weather man promises cooler weather today and probably a permanent change.

The number of persons driven insane by the heat will probably never be known but its effects in that direction may be estimated from the fact that during the week 28 persons have been locked up in the Detention hospital, all of whom had been driven crazy by the heat.

There are about 800 dead horses still unremoved on the streets, the city being unable to secure sufficient assistance to cart as many away as daily succumb to the heat. The mayor has issued an order guaranteeing \$10 to anyone who will remove one of the cadavers.

## AT QUAKER CITY.

PHILADELPHIA, Aug. 12.—The awful heat continued yesterday. At 8 o'clock

the weather bureau thermometer registered 94 degrees and at noon the mercury had climbed up to 95 1-2. No air was stirring and the streets were almost deserted. At 3 o'clock the maximum was reached with 98 degrees. The heat was not so intense on account of the humidity being much lower, ranging from 60 to 55. Up to midnight seven deaths and 40 prostrations were reported.

## EX-Secretary Thompson Stricken.

TERRE HAUTE, Ind., Aug. 12.—The heat yesterday prostrated many persons, among them Colonel Dick Thompson, now 84 years old. He was sitting in his yard playing with his nephews and nieces, when suddenly heat overcame him and he became unconscious, remaining so nearly all day. Physicians, after repeated applications of cold water compresses, reduced his pulse from 104 degrees. He is very weak, but mentally bright.

## BUCKEYE DEMOCRATS

Will Ask the Populists to Fuse on the Whole Ticket.

## TWO STATE OFFICES OFFERED.

Meeting of the State Central Committee

Yesterday—Big Flour Failure at Hamilton—Neat Check Handled in by the Pennsylvania Railroad Company—Judge Swing Dead—Other State News.

COLUMBUS, O., Aug. 12.—The Democratic state central committee met here yesterday and selected Daniel J. McConville of Steubenville, formerly sixth auditor of the treasury, as chairman of the state executive committee with power to name the members of the committee and the secretary. A committee was appointed consisting of Chairman E. W. Durbin of the state central committee, Chairman McConville of the executive committee and Colonel Ike Hill of Newark, A. J. Wolf of Youngstown and W. G. Thompson of Lebanon, to attend the Populist state convention at Springfield, Aug. 26 and if possible arrange for a fusion.

There are two vacancies on the Democratic state ticket, that of state dairy and food commissioner, caused by the death of Patrick McKeon of Cincinnati, and that of judge of supreme court, caused by the resignation of Judge J. E. Elandin of Cleveland. The Democratic state central committee proposes an inducement to the Populists to fuse to allow them to fill these two places on the ticket. The state central committee adjourned to Sept. 1 to await the action of the Populist convention. As 52,000 Populist votes were cast in Ohio for governor in 1894, the proposed fusion on the state ticket is regarded as an important move.

## Big Flour Failure.

HAMILTON, O., Aug. 12.—Carr & Brown, the largest flour mill proprietors in this section, assigned yesterday to William E. Brown, president of the Second National bank. Its stockholders are: W. Barton Carr, Robert E. Brown and D. Paul Brown. Its valuable real estate and mills are worth \$150,000 and bonded for \$50,000, which bonds are pledged for \$40,000. The other indebtedness is mostly due to foreign parties, except \$5,000 due the Second National bank of this city, which is amply secured. The mills had a capacity of 600 barrels per day. Heavy losses through large consignments of flour to eastern parties caused the assignment.

## A Neat Check.

COLUMBUS, O., Aug. 12.—The Pennsylvania Railroad company has forwarded its check to the state canal commission in settlement for the purchase of Eggleston avenue property in Cincinnati and the Hamilton basin property at Hamilton and rentals up to date, the check being for \$87,799.99. The settlement was made on a basis of appraisement made by the legislative committee as follows: Eggleston avenue property, \$57,000; Hamilton basin, \$30,000, and rentals, \$7,999.99. The whole amount was turned into the state treasury to the credit of the canal commission funds.

## A Tot's Death.

BELLAIRE, O., Aug. 12.—At Shetwood, west of here, on the Baltimore and Ohio railroad, a sad and fatal accident occurred which resulted in the death of Lawrence Gray, 4 years old, in three minutes. He and his eldest brother were engaged in carrying coal from the James Turnbull & Company coal mines and, going from the house to the mines, they filled the bucket which they had full of dirt and were dragging it on the path. Lawrence came up behind on a fast run and fell on the edge of the bucket, striking himself under the short ribs, which resulted as above stated.

## Total Loss From Fire.

ZANESVILLE, O., Aug. 12.—The flouring mill of John Miller, at Duncan's Falls, 10 miles south of the city, on the Muskingum river, caught fire at 3 o'clock yesterday afternoon and the flames spread rapidly despite all efforts to extinguish them. At one time six houses in the village were on fire, but they were saved. The county bridge also caught, but the flames were put out. The mill tumbled into the river at 7 o'clock last evening. The loss was \$30,000 without insurance.

## Two Lighting Fatalities.

SANDUSKY, O., Aug. 12.—John Thompson and Jay Leonard were killed by lightning during the violent storm of Monday evening. With others, they were walking on the new government pier at Cedar Point. Several others were shocked. The two men killed had steel angers in their hands. Leonard was knocked into the lake, and his body has not yet been recovered. William Axtell of North Bass was prostrated by the heat and died almost immediately.

MIDDLETON, O., Aug. 12.—Charles F. Gunckel died here yesterday morning. He was one of the most prominent men in southern Ohio, and for the last 20 years was probably at the head of more industrial enterprises than any man in the state.

## Judge Swing Dead.

BATAVIA, O., Aug. 12.—Judge George L. Swing died Tuesday morning. He was aged 70 years and was the oldest member of the Clermont county bar at the time of his death. He was the father of Judge Peter F. Swing of the circuit court.

## ATTEMPTED TRAIN WRECKING.

A Sheriff's Posse Exchange Shots With the Would-be Wreckers.

NOBLESVILLE, Ind., Aug. 12.—Three attempts were made to wreck passenger trains on the Lake Erie and Western railroad, 10 miles south of here, at a late hour Monday night, by placing ties across the track. Sheriff Thacker and a posse of citizens, who were called to the scene shortly before 12 o'clock, did not return until yesterday.

They did not succeed in capturing the would-be wreckers, but they were discovered in a large cornfield, and a lively skirmish ensued. A dozen shots and more were fired, but so far as is known none of the would-be wreckers were injured.

The night was very dark, and the only mark the officers had to aim at was the flash of the weapons in the hands of the desperadoes. The exchange of a few shots was followed by a running fight, in which only a few of the posse took part, but so far as has been ascertained none of the shots took effect on either side.

It was learned, in addition to ties being piled across the track, that the spikes had been removed for a distance of 200 yards, showing conclusively that it was a carefully laid scheme to damage the property of the company and endanger the lives of the passengers. Detectives employed by the company are already at work on the case.

## PROPHECY FULFILLED.

Death by Violence and His Bones Shall Be Scattered.

HAGERSTOWN, Ind., Aug. 12.—The grave of Thomas Watt, in the country at Bryant's chapel, near Centerville, has been burrowed into by groundhogs, and his jaw bone has been dragged to the surface of the earth.

Taken by itself, this fact is insignificant, but when considered in the light of other events, assumes an uncanny nature. Thomas Watt was the neighborhood drunkard. He was more debauched than the ordinary drunkard, and gave less attention to his family's needs. Like most drunkards, he had several children, who went about almost naked and wild as colts. His worthlessness aroused the anger of an old woman, who lived near by, and also claimed to possess powers of divination. She prophesied that he would die violently, and for his sins his bones would be scattered after death. In January, 1893, Thomas Watt was drowned while drunk. The old woman's prophecy was commonly known and laughed at by the neighbors, but now, since it has been literally fulfilled, her business as a fortune teller has increased wonderfully.

## FIREMEN STRICKEN.

Several Blocks on the Water Front at Norfolk Destroyed.

NORFOLK, Aug. 12.—A terrible conflagration broke out here last night at 8:30 o'clock, destroying the Atlantic sawmills, the Old Dominion Glass factory and the Merritt wrecking warehouse and the docks. The fires covered several blocks on the water front in Atlantic City ward and was fiercely fought by the firemen. The heat was terrible and no less than 25 firemen were stricken down at their post of duty and removed to the hospitals and their homes. The total loss will reach nearly \$100,000. Cause unknown.

## DEADLY FUMES.

Four Workingmen Suffocated by Sulphuric Acid Gas.

PHILADELPHIA, Aug. 12.—Four workingmen were suffocated last evening by sulphuric acid gas at the chemical works of Moro Phillips in the outskirts of Camden. The victims were: Joseph Devlin, James Mullen, Andrew Adler, George Garrison.

Mullen was first overcome and one after the other, Devlin, Adler, and Garrison, who went to the assistance of those stricken, succumbed to the effects of the gas.

## Major Worthington Dead.

LOUISVILLE, Aug. 12.—Major James C. Worthington of the United States army died late Monday night at the home of his mother-in-law, Mrs. Harriet Osborne, 38 West St. Catherine street. He had been down with acute rheumatism since last December. Previous to that time he was surgeon in charge of Fort Thomas. He was connected with the army service for 20 years. His old home was at Baltimore. He stood high in military circles. Major Worthington was 43 years of age. The funeral will take place tomorrow afternoon at 5 o'clock at the residence of Mrs. Osborne. The interment will be in Cave Hill.

## Wanted For Wife Whipping.

GREENSBURG, Ind., Aug. 12.—Henry McNamean of Indianapolis is wanted by the officers, charged with assaulting his wife. They have not lived together for several years, and the woman works here in a laundry and makes her home with McNamean's sister. Yesterday McNamean entered his sister's home and assaulted his wife with a chair and kicked her out of the house because she would not consent to live with him again. His sister interfered, else the injury might have been serious.

The National party has put out an electoral ticket in this State. This should not be confounded with the National Democratic party. Both crowds, however, are made up of bolters.

Some of the patent medicine concerns are working Republican papers for a nice lot of free advertising. The said editors are glad to open their columns to any stuff that sneaks at an argument against silver.

The enemies of Bryan will have to search in vain for any anachistic or communistic sentiment in the many speeches be delivered on his triumphal trip East this week. Bryan is a Christian gentleman, and is fighting for the welfare of the people in this campaign.

#### THE LATE DR. CARTMELL.

A Tribute to Deceased From One Who Knew and Greatly Loved and Esteemed Him.

Affection too often governs the pen of a writer who attempts a tribute to the memory of a dead friend, and in such a case criticism is rendered dumb for animadversion deems not with the honest expressions of the heart.

Dr. S. M. Cartmell, ("the old doctor" as he was tenderly and familiarly called by the young and old of an entire county), was one whose heart and mind beat in the same degree and with perfect uniformity: both sound, both brave, both unsuspecting and both generous.

Such a combination makes—not a perfect man, but very nearly a complete man, and if this be true, no worthy attributes ever had an exemplar, the fine gentleman, the student and scholar, the philanthropist and magnanimous man but likely gone to his rest was the one, and whose remembrance has induced these affectionate notes.

Dr. Cartmell entered upon the duties of his long, serious and laborious life without that affectionate, prayerful and ministering government, the guiding influence of a mother.

He may be said to have found the seriousness of life at the age of five years. It is certain that his boyhood took a degree of sober, thoughtful gravity at an age when lads are supposed to be free of thought or care. This fact might have made him morose and cynical in his mature life but for the deep and inexhaustable vein of patience, placid disposition, clean heartedness, combined with a strong and sterling individuality, which perpetuated and freshened the springs of an invincible and imitless good humor and generosity to the last of his days. The seriousness of his nature as well as his life's work, was therefore tinctured and seasoned by as sweet a disposition as seldom fails to the lot of an individual and pointed him out as an universal favorite wherever he walked. His heart and mind worked in concert, both in his private and professional life. You observed the strength and forcefulness of the one while feeling and tasting the tenderness and sweetness of the other.

His best days were taken up among the most stirring and serious events of our country's history. With a wife and a young family dependent upon his practice as a physician, with a home life peculiarly sweet and attractive, his conscientious sense of his patriotic duty impelled him like many others to leave all this behind and offer his professional skill in behalf of the army of his country, and perhaps a great part of the universal affection in which Dr. Cartmell was held by this community, had its infidelity in the camp and hospital, where the brave as well as sympathetic surgeon bent his skill in the alleviation of the suffering of his fellow soldiers. His career as an army surgeon needs no eulogy. It is embalmed in the hearts of the comrades who survive him.

He served with his regiment until that regiment's services were no longer required, and then returned to his home and resumed the practice of his profession with the same earnest zeal, the same modest demeanor and the same self-sacrificing devotedness toward the sufferings of his fellowmen, which has characterized his long and useful life.

His brothers in his chosen profession are best prepared to speak of his eminent skill and ability as a physician and surgeon, but no one has a closer acquaintance or better knowledge than the writer of that refined nature in the man, which made his domestic life a long and continuous series of daily happiness. There the serious and sole role of physician was put aside and the husband, father, friend and genial gentleman took up his bloom and gave out his fragrance like those sweet blossoms which only unfold when the busy day is ended.

Such a life would never be completely rounded out or finished in the absence of a sincere profession of the Christian faith. Dr. Cartmell, with his noble manhood unburdened by the trials, temptations and vicissitudes through which he had passed, knew and felt this and having faithfully performed his duties to his family and his fellowmen, turned to his Maker instinctively, but seriously, like a soldier enlisting unto death.

A great community will long mourn him, for he was good, kind and tender to us all. The recording angel in his book of gold surely hath his beloved name inscribed among those "whom love of god hath blessed." lor,—more than any one I knew,—he loved his fellowmen. "NAD."

### FOR FREE COINAGE.

The Record Shows McKinley Voted That Way While In Congress.

An Explanation in Order From the Republican Presidential Nominee.

Let's Have It.

[Cincinnati Enquirer.]

On the 5th of November, 1877, the House of Representatives passed a bill to authorize the free coinage of the standard silver dollar and to restore its legal tender character. This bill provided for the restoration of the law of 1837, providing for the free coinage of silver, which had been repealed by the act of 1873. It provided for the free and unlimited coinage of silver at the ratio of 16 to 1 without any conditions whatever, on the same terms as gold bullion is coined; and it repealed all conflicting laws. On the passage of that bill the vote stood 163 yeas, 34 nays, and not voting 93. Among those who voted in the affirmative, we find the names of the Hon. John G. Carlisle, the present Secretary of the Treasury; Hon. Jacob D. Cox, of Ohio; the Hon. Charles Foster, afterward Secretary of the Treasury; Hon. H. A. Herbert, present Secretary of the Navy; Hon. J. W. Keifer, afterward Republican Speaker of the House of Representatives, and the Honorable William McKinley, who was marked and branded with the gold standard trade mark at the St. Louis convention as the Republican "sound money" candidate for the Presidency, and many other prominent gentlemen.

This bill was amended to suit the wishes of the Wall street gold fraternity. The free coinage provision was stricken out, and the substitute known as the Allison amendment, was inserted, under which the Secretary of the Treasury was instructed to buy silver bullion enough to coin not less than two millions and not more than four million standard silver dollars a month.

Of course, all the silver bullion owners were thus thrown into competition for the sale of their bullion and the lowest price at which it was offered was the price paid. The bill degenerated from a measure of public good, under which silver would have been restored to its former place as a money metal, like gold, and silver was thrown under foot to be trampled out in the struggle for the sale of a limited quantity per month. The bill in its unadulterated form, providing for free coinage, now demanded by the Chicago platform, received the willing votes of John G. Carlisle, Charles Foster and William McKinley. This was five years after the demonetization of silver, and when it had been as thoroughly debated as any measure that had ever been acted upon in Congress. It was passed more than eight months after Mr. Jones, of Nevada, had submitted his learned and exhaustive report of the Silver Commission, created by a joint act of Congress August 15, 1876. If those who voted for the bill had adhered to it, and voted down the Allison amendment, we should have had free coinage more than eighteen years ago.

It is in order for Mr. McKinley and his supporters to explain in what he differs from the other "anarchists" who voted with him in favor of free coinage of silver at the time, and also how it was right in 1878 to pay Government bonds in standard silver dollars and repudiate and dishonor in 1890.

## Sleep

Induced by the use of coca, opiate or narcotic compounds is bad, decidedly bad. They undermine health and shatter the constitution and the patient is steadily growing into a worse condition—often resulting in the terrible slavery and misery of the cocaine and opium habit. Sleep induced by the use of Hood's Sarsaparilla does not perhaps come as quickly, but it comes more surely and more permanently through nature's great restoring and rejuvenating channel—purified, vitalized and enriched blood. This feeds the nerves with life-giving energy and builds up the system and constitution from the very foundation of all health and life—the blood—pure, rich, red blood.

The Democratic convention to select a candidate for Congress in this district is in session at the opera house.

Eleven o'clock this morning was the hour fixed for calling the convention to order, and the BULLETIN goes to press too early to give any of the proceedings to-day.

It's the field against Colonel W. LaRue Thomas, the leader or the instructed vote, and a strong fight is being made to down the Mason County man.

It was learned this morning that an effort was being made by the opposition to Thomas to unite on Hon. Edgar B. Hager, Boyd County's candidate.

## MAYSVILLE AT LEXINGTON.

The leaders in the Blue Grass League Cross Bats To-day and To-morrow—Base Ball News.

The following is the standing of the Blue Grass League clubs, including all games played:

| Clubs        | Won | Lost | Played | Pt. Cr. |
|--------------|-----|------|--------|---------|
| Lexington    | 4   | 0    | 4      | 1,000   |
| Maysville    | 2   | 0    | 2      | 1,000   |
| Paris        | 0   | 2    | 2      | 000     |
| Mt. Sterling | 0   | 3    | 3      | 000     |

The Maysvilles went to Lexington this morning and will meet Captain Bain's team this afternoon and to-morrow. These teams are leaders in the Blue Grass League and the contest will be hot ones. If the locals succeed in downing the Lexingtons in these two games it will give us a nice lead. Shepherd will likely be in the box to-day.

Paris and Mt. Sterling meet on the former's grounds to-day.

Paris has gotten together a strong team, and will likely cut a prominent figure in the league hereafter.

The games with the Lexingtons scheduled for next Friday and Saturday at this place will both be played Friday, very likely.

Newton has demonstrated that he can hold his own in fast company. He was cool and steady in Monday's game with the Louisvilles, and with good support would have shut them out.

Lexington defeated the Mt. Sterlings Monday, giving the Montgomery boys another coat of whitewash. Score 9 to 0. Hiberger pitched for Mt. Sterling, and Kostal for Lexington, and again Tuesday.

The schedule of the Blue Grass League is not at all satisfactory to the Maysvilles, nor is the rule governing the financial part of the games. Unless a change is secured, Maysville may draw out of the league. The way things are now arranged they can do better financially as an independent club.

### JAIL DELIVERY AT PARIS.

"Nub" Jones, the One-Armed Burglar From Millersburg, Makes His Escape.

Monday night at 8 o'clock two desperate prisoners, "Nub" Jones and Ed. Dickson, both colored, escaped from the Paris jail.

In some unaccountable manner the men gained access to the lower corridor and laid in wait to overpower Deputy Juiler Fox when he made his last round to lock the prisoners in their cells.

When Mr. Fox unlocked the outer door, Dickson, who was standing behind an off-set in the wall, dashed by, and when pursued by Mr. Fox jumped from a back window fifteen feet to the rocky ground below, and escaped in the darkness while the jailer was getting his pistol.

In the meantime, "Nub" Jones escaped through a front door. Jones is a tall, one-armed negro, who is awaiting trial for a burglary at Millersburg. It is remembered he was only lately captured. He has served two terms in the pen.

Dickson is a yellow man of medium size, and was in jail for burglary. He is very likely lame from the result of his jump.

**WOMAN GRIEVED TO PIECES.**

**L. A. W.**  
**WHEELMEN AND WOMEN ENJOY GREAT SPORT  
IN THE BLUE GRASS REGION.**

LOUISVILLE, Aug. 12.—Louisville and her hundreds of L. A. W. guests were awhirl yesterday. Not satisfied with having materially curtailed the field of usefulness of the Kentucky thoroughbred this jolly crowd with their fine steeds invaded the Blue Grass domain where he so long held complete sway. Country runs were the feature of the day's program, and those that attracted the greatest interest among the visitors were the spins to the numerous stock farms a few miles from Louisville.

Heat had no terror for the enthusiastic wheelmen and wheelwomen. Indeed, the reports of intense heat from all over the country made them quite content to be where, if worst should happen, agreeable restoratives are native and abundant. The runs were all well attended, those to the parks and suburbs as well as the country runs. Fountain Ferry park, too, had its throng of capped and kneebooted racing followers, intent upon gathering information as to form and relative ability of the contestants in the events which beginning Thursday, will absorb all interest in the meet.

With watches in hand they caught the flyers for thirds, sixths and twelfths and speculated on their respective chances. All the fast men were out, paced by everything from singles to quintets. Some hard work was done, but it gave little indication as to the probable winners. There is just one sure thing in that regard, that a well known trainer put it, that "any man who qualifies for a final in these races has got to be a rider."

The crowds of L. A. W. members and visitors were increased today by several hundreds, but the big rush is expected to come for the races.

All the railroads entering Louisville have agreed on a maximum of \$2, the round trip, for points 150 miles distant, and a rate graded down to less than 50 cents. This will be in effect Saturday, so that those who are unable to attend the meet before that day will have a cheap opportunity. It is expected that trains arriving Saturday morning will pour thousands of people into the city. Mayor Todd has issued a proclamation declaring Thursday afternoon a half holiday in honor of the League of American Wheelmen. On that afternoon the city hall will be closed and city employees will be given an opportunity to attend the races, which begin that afternoon at the track.

Last night there was a highly enjoyable "smoker" at headquarters. This afternoon's program includes a century run over the original century course to Frankfort and return, runs to New Albany, Jeffersonville and the Falls of the Ohio in the morning, a grand parade at 2 p.m. and a watermelon feast at Iroquois park in the evening.
